## Experience the workplace of tomorrow.

The workplace of tomorrow is transparent, flexible and inspiring. Nice, but what does this workplace look like? And how does the workplace of tomorrow feel? One can discuss that endlessly, but you can experience it best at Drisag in Herentals. Drisag, specialist and manufacturer of office furniture projects, invites you to its workplace at Frame 21 in Herentals.

Our building is called Frame 21, a landmark by the E313. The 21-meter high building, designed by B architects in Antwerp, looks light and invites you to come inside for a look. And that's exactly the intention.

### ***Transparent***

Those who enter the lobby of Frame 21 are awestruck. Certainly, you're a guest at Drisag, which has its office and showroom (1.500 m<sup>2</sup>) here. But there is even more to see: a vibrant business community, with people at work everywhere.

### ***Flexible***

Drisag displays a sample of modern furniture solutions. Solutions that are as flexible as today's people and organizations.

Drisag has solutions for everything: meeting, brainstorming, preparing presentations, food, sports and chilling out. The work environment is easy to set up and always easy to adjust to other work tasks. Meeting and presentation rooms, workspace for bilateral meetings or working on your own.

Courtyard, outdoor workplaces or a rooftop terrace with sports facilities, bar and grill? Drisag offers endless possibilities. Share the workplace

...

### ***Designed to make you feel good at work***

At all workplaces in Frame 21, Drisag furniture is used intensively every day. Furniture that can be equipped with handy tools like charging stations for smartphones and media devices. Also multifunctional are the units used for storing materials, simultaneously acting as a separation between work stations and providing a significant contribution to sound regulation. Drisag provides stylish, convenient workplaces that meet the standards for healthy working. Designed to make you feel good at work, we call it.

### ***Made in Belgium***

At the site, Frame 21 is the central building. However, as a guest of Drisag you are also welcome to enter the adjacent building, the Drisag Workshop.

A team of professionals manufacture colourful, comfortable and ergonomic seating furniture here in a traditional way. The professionals are also employed in the production of custom products. Also good to know: Drisag delivers maximum efforts aimed at the circular economy. Drisag is after all always thinking about the workplace of tomorrow...

### ***Drisag invites you! Come be inspired!***

# Acoustics

No one likes to be able to overhear a colleague's entire phone conversation in detail or hear the air system buzzing. Acoustic solutions are very important for a pleasant working atmosphere in which the employees can concentrate. Acoustic walls and panels are used on and around various desks, against walls or hanging from the ceiling. All these soft materials ensure that the sound is absorbed and doesn't bounce back.

# AcoustiCloud

design by Drisag

## Product description

Different shapes, sizes and colors, there are endless possibilities. Be brave and create your own composition, one that enhances your work environment. In addition to the aesthetic qualities, these clouds drastically improve the acoustics of your interior.

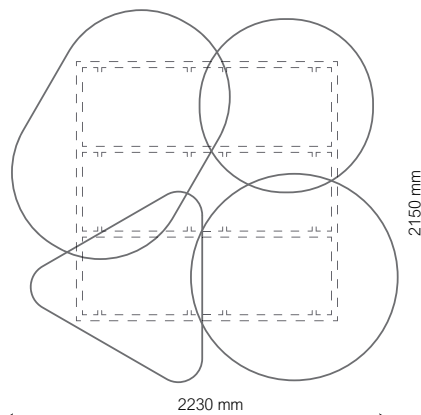

## Technical information

- Acoustic shapes: MDF, acoustic PU foam, non-removable upholstery
- Frame: Powder-coated metal frame
- Ceiling mount: metal cables and cable adjusters

## Fabrics

Available in all Drisag fabric groups.

## Dimensions

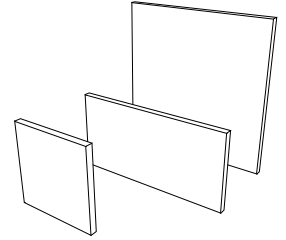

# AcoustiPanel

design by Drisag

## Product description

Good acoustics should not be underestimated. Enhance yours by installing some of our AcoustiPanels. Let them blend into your interior or let them pop with a vibrant color. Three sizes, endless configurations.

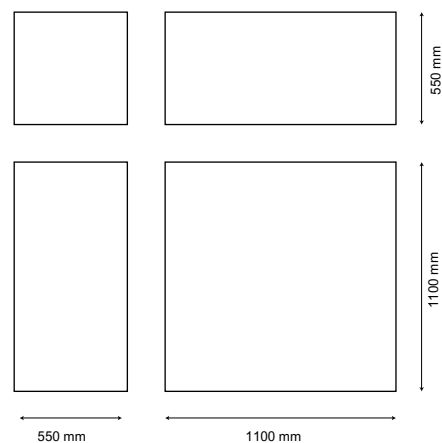

## Technical information

- Upholstery: non-removable upholstery
- Frame: plywood and MDF inner structure filled 40mm with acoustic foam
- Wall/ceiling: attached to the wall with Velcro ceiling mount with metal cables

## Fabrics

Available in all Drisag fabric groups or with custom prints.

## Dimensions

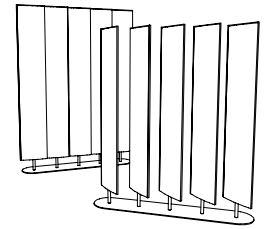

# AcoustiShutter

design by Drisag

## Product description

The panels can rotate separately on their own axis. By opening them you create transparency, you obtain more privacy by closing them.

## Technical information

MDF structure with foam, upholstered in a wide range of standard fabrics. The base is made of powdercoated steel.

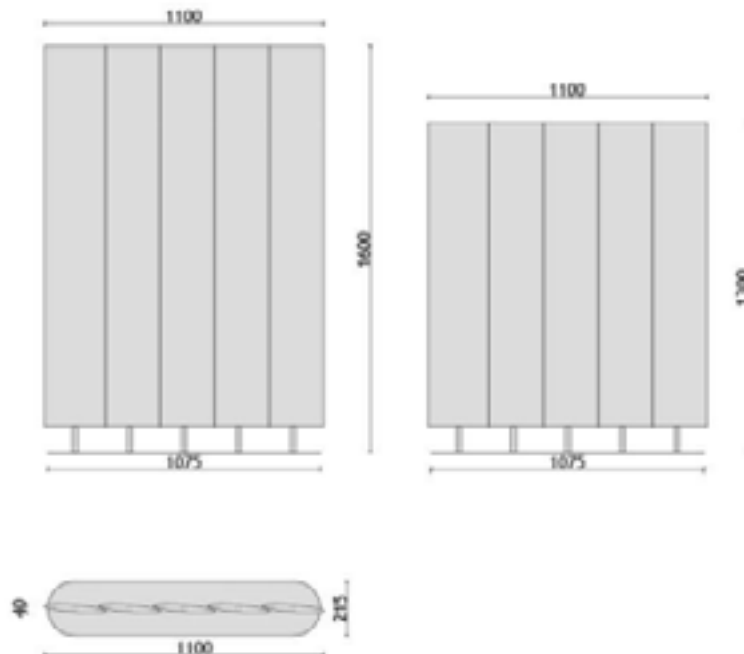

## Fabrics

Available in all Drisag fabric groups.

## Metal colors

	K40 - black RAL9005		K53 - grey blue		K50 - rusty brown
	K41 - white RAL9010		K57 - pale green		K54 - beige red
	K58 - dark grey RAL7016		K52 - cement grey		K55 - coral red
	K51 - squirrel grey		K56 - black green		

## Dimensions

# AcoustiSphere

design by Drisag

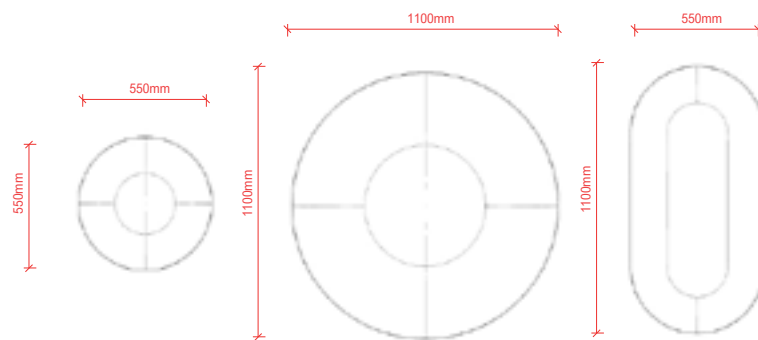

## Product description

Elegant and it improves acoustics, what more could you want? These spheres come in three sizes and can be upholstered in a wide variety of fabrics. Create your own composition and give your interior the look it deserves.

## Fabrics

Available in all Drisag fabrics groups.

## Dimensions

# CoupéScreens

design by Drisag

## Product description

With this acoustic system you create individual workplaces. With only one height but different lengths, this product offers a solution for many problems.

## Dimensions

# Moveable Acoustiwall

design by Drisag

## Product description

With this acoustic wall, you can divide spaces without actual walls. It's an ideal asset for multipurpose workplaces, brainstorm and meeting rooms. Because a quick sketch is done quickly. Moreover, this wall can be taken down at one place and assembled again at another without causing damage to your floor or ceiling.

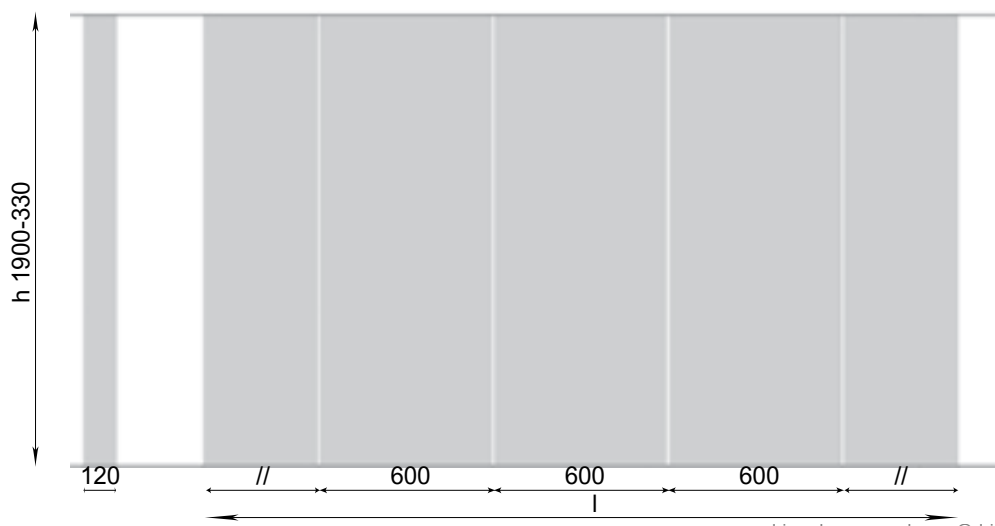

## Technical information

The wall consists of galvanized profiles (thickness 0.8mm) covered with upholstered panels on the front, back and sides. These panels consist of MDF (thickness 4mm) with CM33 mousse (thickness 10mm) and are upholstered in the fabric of your choice. The panels are attached to the profiles with velcro.

## Fabrics

Available in all Drisag fabric groups.

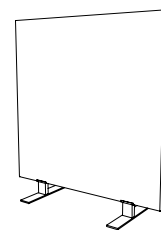

## Dimensions

# PartitionScreen

design by Drisag

# Poly

design by Kruijne Architectuur

## Product description

The concept behind Poly took a journey towards simplicity. It aimed to capture the essence of the ideal organic seating shell using low-poly shapes. This approach results in several facets that are positioned at angles to each other, approximating an ergonomic shell-like seat.

The poly chair, featuring an extended armrest inhabits the intriguing intersection between relaxation and productivity.

It supports the active and dynamic work environments that we are evolving towards, both at home and in the office.

## Technical information

- Seat & backrest: MDF 9mm, PU foam, removable upholstery
- Frame: epoxy-coated metal base with plastic glides

# Tables & Desks

Nothing is more important than a good desk or table to work on. Some of us spend several hours a day on it. It is therefore very important that this meets all your wishes.

We at drisag have a wide range to choose from. From large conference tables to side tables, we have it all.

Our strength at drisag is that you can choose from a wide variety of colors. Whether it concerns 1 or 100 pieces, it does not matter. We make sure you get what you want.

# Atlas

design by Drisag

## Product description

Slim and sturdy. The Atlas range offers you a range of high and low tables that are easy to combine within your interior.

## Technical information

- **Base:** Epoxy-coated metal base. Two identical legs made from round profile 30mm and metal rod 12mm at the ends fitted with two spherical black plastic weft caps. These legs are connected by two metal profiles made of metal tube 35x35mm.
- **Table top:** Melamine tabletop 18mm

H1180/ST37 - halifax oak

U702 - cashmere grey

H3157//ST12 - vincenza oak

U608 - pistachio green

H3433/ST22 - aland Pine

U636 - fjord green

Fenix black

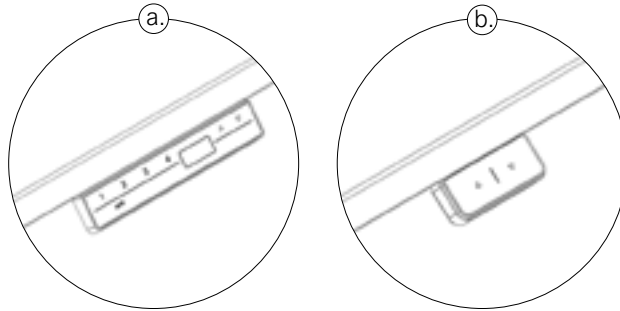

## 5. OPTIONS

### 5.1. Control

Height settings are extremely personal. Therefore, it is possible to choose a control with integrated memory (4 presets). If this is not necessary, you can also opt for a basic controller.

- a. Memory (standard)
- b. Basic (without memory)

Colors: *black plastic*

### 5.2. Cable management

Depending on the need, there are different options. All options can be combined with each other.

- a. Cable sleeve
- b. Cable aorta (only for benches)
- c. Cable tray

Cable sleeve:

- technical fabric, black
- zipper
- 2 sizes: 70cm, 100cm

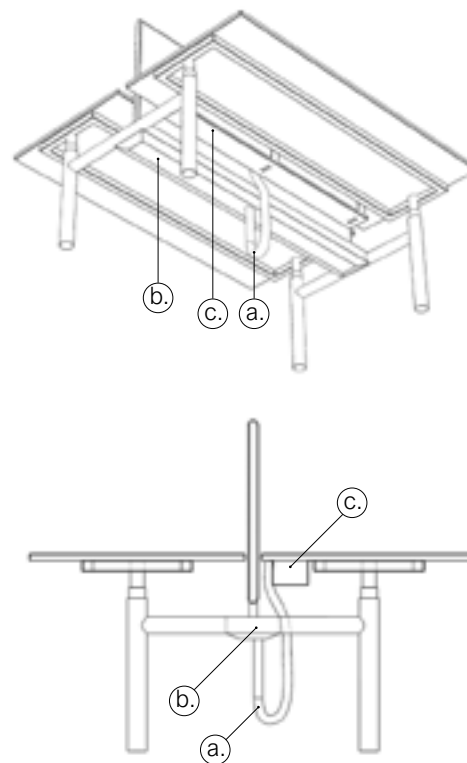

Cable aorta:

- only applicable to benches
- fitted with metal lids
- always finished in the same color as the base
- length = bridges the distance between the legs

Cable tray:

- screwed to the bottom of the table top
- powdercoat finish, Drisag metal colors
- 2 sizes: 56cm, 146cm

*Note: 146cm cannot be combined with triple round & hollow*

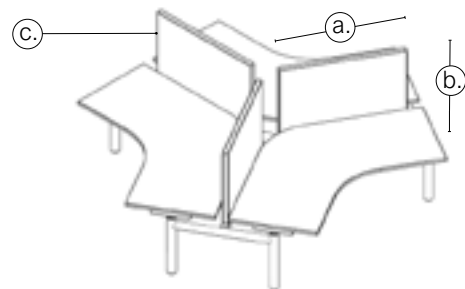

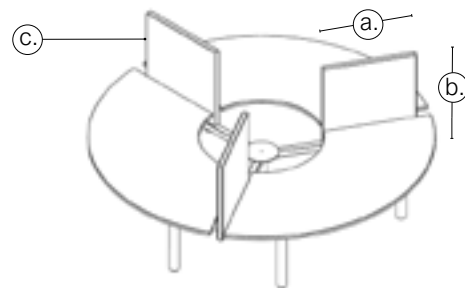

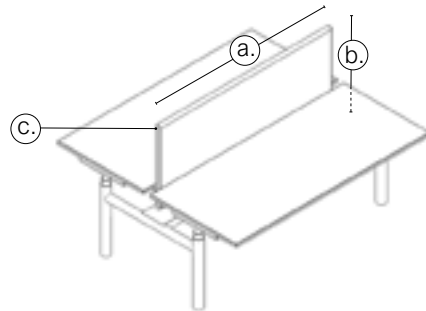

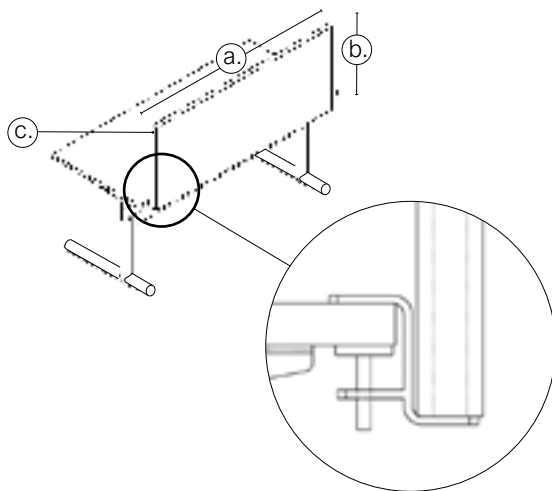

### 5.3. Partition screen

In addition to an acoustic advantage, a partition screen also offers extra privacy.

- a. Length: receding 10cm (in relation to the edge of the table)
- b. Height 65cm
- c. Thickness: 4cm

*Fabric colors: all Drisag fabric groups.*

*Note: for singles, 2 extra brackets are required.*

## 5.4. Electrification

The desk can be equipped with electrification. The table top can be provided with a cable inlet (a.) so that the cables can be plugged in under the desk. other options (b. and c.) offer a simple plug&play solution.

- a. Cable inlet
- b. built-in unit (single)
- c. built-in unit, single-sided lid (with or without multiple infill)
- d. built-in unit, fixed (multiple infill, with or without cover)
- e. surface-mounted unit (multiple infill)

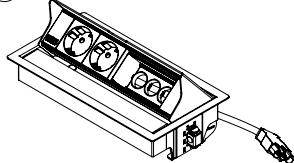

(a.)

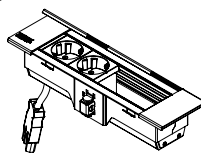

(b.)

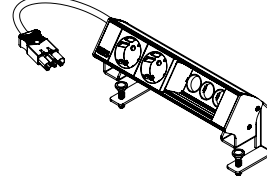

(c.)

(d.)

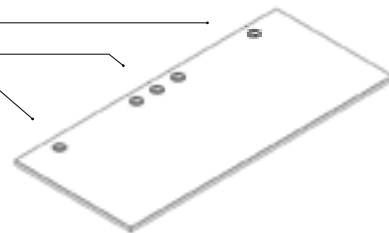

(e.)

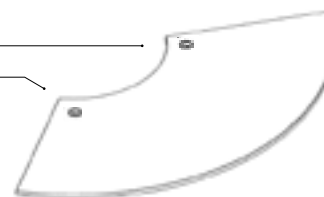

Position Solo & bench:

- Right
- Central (Center/Left/Right)
- Left

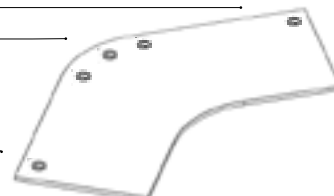

Position Triple round:

- Right
- Left

Position Triple round:

- Right
- Center (Left/Right)
- Left

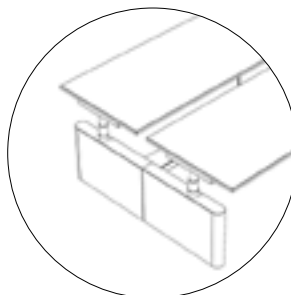

### 5.5. Side panels

side panels provide additional privacy and a cleaner look.

Colors: *Drisag metal colors*

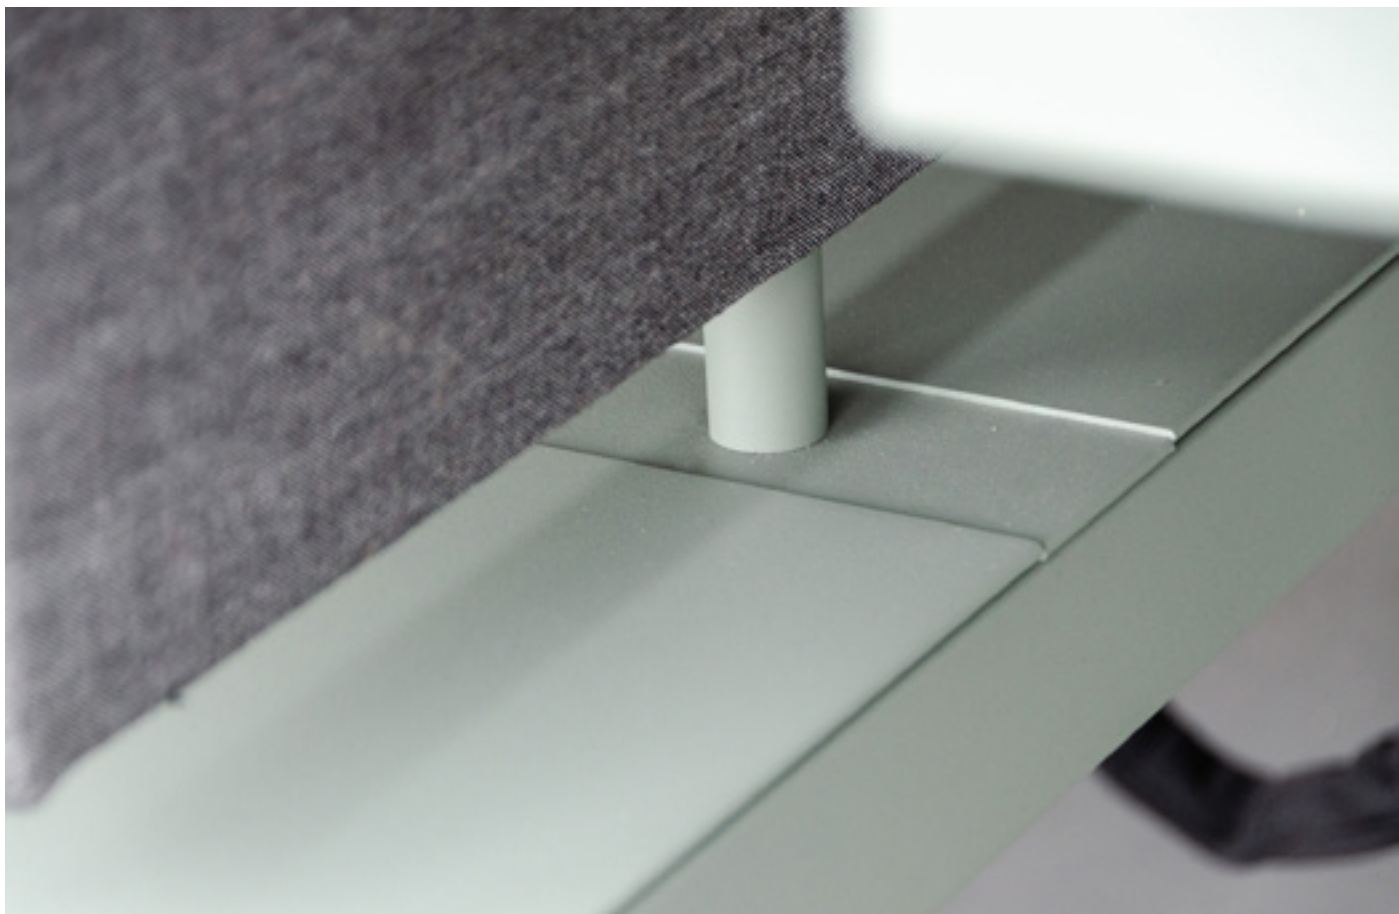

Note: *Benches only*

## Options

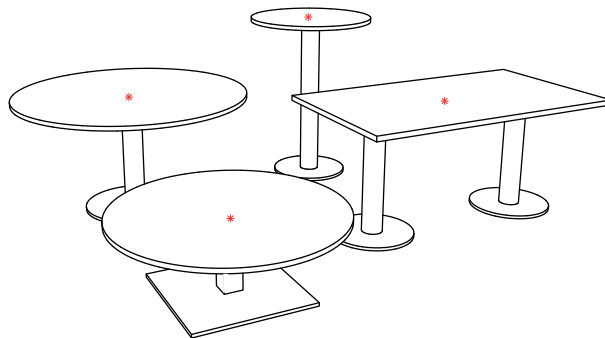

- System tables can be equipped with electrification. Depending on budget and need, the following options can be chosen:
  - a. Built-in unit, elevator
  - b. Built-in unit, double-sided lid (with or without multiple infill)
  - c. Built-in unit, fixed (multiple infill, with or without cover)

Note: The number of electrification points and placement is already predetermined according to the size of the table. See indication (\*) below. If electrification is chosen, we always provide it in the centre and fit the table top with cable clips at the bottom.

Note: In the case of tables with several legs (more than one):

- Option (a.) is always placed directly above a kolumn, regardless of the number of legs. When a table has 2 legs, the table will be equipped with 2 electrification points.
- Option (b.) and (c.) are only available for table with more than one leg and are always placed in the centre of the table top.

# System

adjustable height

design by Drisag

**Product description** Height adjustable small table.

**Materials** Height adjustable frame with a round laminated tabletop.

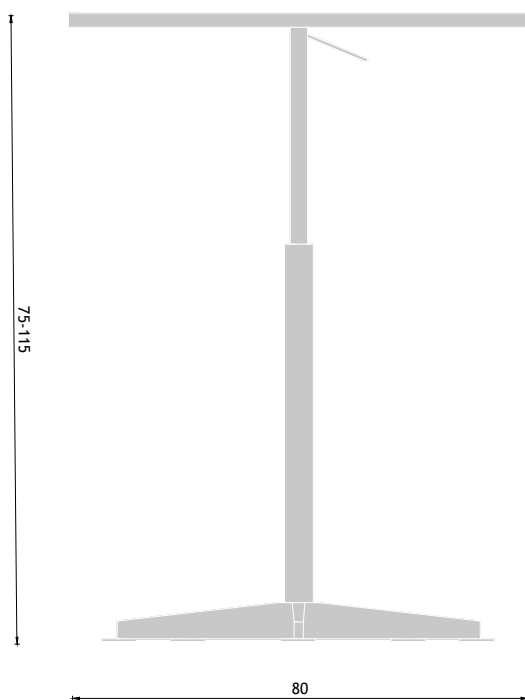

## Table tops

## Dimensions

# TipTop table

design by Drisag

## Product description

Create a large conference table or a small workspace in a second. A user-friendly mechanism underneath the tabletop makes it possible to fold the table when unused and saves a lot of space. It's four wheels make it easy to maneuver.
