EcoustiPads

design by Drisag

Product description

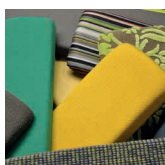

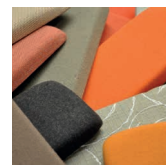

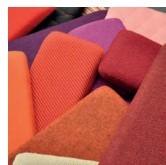

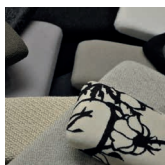

Color, structure and acoustics: the components of EcoustiPads. These wall panels are made from cutting waste from furniture fabric and are a feast for the eyes (and ear).

Technical information

MDF Panels with acoustic foam, upholstered in a wide range of leftover fabrics. Available as a small (4 EcoustiPads), medium (7) and large (11) set. The EcoustiPads are mounted on a black MDF ruler, which is mounted to the wall.

EcoustiPads comes in 5 color sets, but each set consists of random scrap textile. Therefore, colors of a set, will always be unique and differ from the examples given below.
